

Lecture 3

COMP207

Weekly survey

- None seemed to have answered it, so I assume everything is going well?
 - THIS SLIDE MIGHT CHANGE A BIT – I made the mistake of ending it at midnight on Monday

Panopto is currently down

- The new University's system for managing videos is seemingly not working currently, so I haven't uploaded the video of the second lecture
 - (I think you got a mail about it as well)

What examples are covered today?

- More about FOREIGN KEY
- How to UPDATE
- SQL Injections
- Examples from exam 2 years ago + SQL assignments from earlier years
- SELECT basics
 - What can we do in SELECT
 - What can we do in FROM
 - What can we do in WHERE
 - What can we do in ORDER BY
 - (GROUP BY, the last one, will be covered Thursday and I will release your assignment)
